DETAILED ACTION

The request filed on 02/20/04 Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/970,355 is acceptable and a RCE has been established. An action on the RCE follows.

Allowable Subject Matter

1. Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a circuit component having a circuit board, a second circuit board, a terminal, a length of the circuit board, a different in coefficient of thermal expansion (CTE) between the circuit board and the second circuit board, and some other claim elements, for example, US patent 4,970,577 teaches a semiconductor chip module comprising a circuit board and a second circuit board, and a terminal, the circuit board having a length of 10mm, and a different in coefficient of thermal expansion (CTE) between the circuit board and the second circuit board is 0.000002/celsius degree or greater, US patent 4,647,426 or 5,191,404 both show a device having first and second circuit board, and a terminal, the terminal having a C-shaped holding section, US patent 5,612,512 shows a high frequency electronic component having a dielectric substrate mounted on a base substrate by spacers . However, They do not teach or render obvious in combination of a circuit component having a terminal that separates a circuit board from a second circuit board by 0.3mm-0.5mm.

Art Unit: 2827

Also, there is no suggestion to modify the references to include these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
